The vendor shall not invoice the County for back ordered items until such back orders are delivered and accepted by the County's authorized representative. It is understood and agreed that the County may, at its discretion, cancel back orders after the grace period identified in this paragraph has lapsed, seek the items from another vendor, and charge the vendor for any directly associated re-procurement costs. This warranty requirement shall remain in force for the full period identified above; regardless of whether the bidder is under contract with the County at the time of defect. Any payment by the County on behalf of the goods or services received from the bidder does not constitute a waiver of these warranty provisions.

**B. CORRECTING DEFECTS COVERED UNDER WARRANTY**

The bidder shall be responsible for promptly correcting any deficiency, at no cost to the County, within five (5) calendar days after the County notifies the bidder of such deficiency either verbally or in writing. If the bidder fails to honor the warranty and/or fails to correct or replace the defective work or items within the period specified, the County may, at its discretion, notify the bidder, in writing, that the bidder may be debarred as a County bidder and/or subject to contractual default if the corrections or replacements are not completed to the satisfaction of the County within five (5) calendar days of receipt of the notice. If the bidder fails to satisfy the warranty within the period specified in the notice, the County may (a) place the bidder in default of its contract, and/or (b) procure the products or services from another vendor and charge the bidder for any additional costs that are incurred by the County for this work or items; either through a credit memorandum or through invoicing.

**ACCEPTANCE OF PRODUCT BY THE COUNTY**

The product(s) to be provided hereunder shall be delivered to the County, and maintained if applicable to the contract, in full compliance with the specifications and requirements set forth in this contract. If a vendor-provided product is determined to not meet the specifications and requirements of this contract, either prior to acceptance or upon initial inspection, the item will be returned, at vendor expense, to the vendor. At the County's own option, the vendor shall either provide a direct replacement for the item, or provide a full credit for the returned item. Under these circumstances, a County representative will solicit competitive quotes to obtain a price for the required items. If there are multiple vendors on the contract, the County representative may also obtain price quotes from these vendors. The County reserves the right to award these similar items to the primary contract vendor, another contract vendor based on the lowest price quoted, or to acquire the items through a separate solicitation.

### **SHELF LIFE OF STOCK**

The successful bidder(s) shall supply the County with fresh stock only and shall insure that items with a limited shelf life are inspected and certified fresh by the bidder prior to shipment to the County.

### **DEMONSTRATION OF COMPETENCY**

The County may conduct a pre-award site inspection or hold a pre-award qualification hearing to determine if the bidder is capable of performing the contract if awarded. As part of the determination of the bidders' suitability for award the following criteria will be considered.
